

Here in the Night

Joy Maves

Verse 1:

Here in the night I've only heard
I've yet to see the light of day
I've heard whispers, I've seen glimpses
Of Your beautiful face
I've heard the Word of Promise
And it has caused my heart to hope
It has caused my heart to long

Pre-chorus:

So we are watching and waiting
And ceaselessly praying
Until the day breaks
(B)
And the shadows flee away

Chorus:

Here in the night
We long for the light of day
Bright and Morning Star, arise

Verse 2:

Hidden with Christ in God
What I am is yet to be known
We are waiting for the redemption
Of His purchased possession
When He appears, we will be glorified,
And it has caused our hearts to hope
It has caused our hearts to long

Bridge:

A new day will dawn
And the King will come
He will take His place
He will dwell with us
When He comes with the clouds
The redeemed will cry out, saying
"Worthy is the Lamb"
