

# Outside

Luke Wood

## **Verse:**

There's a lonely road that leads to brokenness  
It's the way to the high and holy place  
If that's where You are, that's where I want to be  
I'll follow Your fragrance outside the gate  
Tell me, where do Your tears fall tonight

## **Pre-chorus:**

Lead me outside these city walls that I've built to keep myself safe  
Take me up the mountain of myrrh; as long as You're here I'll stay  
Tell me Your name again, but this time let wonder arise  
This is the safest place to be when the world starts falling

## **Chorus:**

I want to cry with You when the world starts falling  
I'll die with You when the world starts falling

## **Bridge:**

Don't let me stumble while Your heart is breaking  
Wake me up to feel what You feel

Wake me up from the American dream  
I want to be with You, for better or worse
