

Whirlwind

Katie Reed

Take me to the center of Your whirlwind and keep me as the apple of Your eye (3x)
Take me to the center of Your whirlwind, whirlwind, whirlwind

Take me to the center of Your whirlwind (echo)
Take me to the center of Your whirlwind (echo)
Take me to the center of Your whirlwind, whirlwind, whirlwind

He has His way in the whirlwind, He has His way in the whirlwind
He has His way in the whirlwind, in the whirlwind, in the whirlwind

It's like a distant thunder calling me, it's like a distant thunder drawing me
It's like a distant thunder calling me, it's like a distant thunder drawing

And He's wounded me with love, stricken me with love
Slain me with love, over and over
And when You feel so far away, I know You're calling out my name
You're knocking on my door in lovesickness

Homesick, homesick for heaven, heaven
Homesick, homesick for heaven, heaven

And I will see Him again, feel Him again
Hear Him again, taste Him again
